

The Alumni Office of the University of Wuerzburg offers its services to current and former students and employees from all over the world with a wide range of events and projects. From October 9 to 13, thanks to many colleagues and professors, we can present a diverse programme focussing on Europe and the European Union. 20 Alumni from different European countries (profiles on [www.alumni.uni-wuerzburg.de](http://www.alumni.uni-wuerzburg.de)) will be back to their former University. They will enrich the programme with their specific knowledge and intercultural background.

**We are delighted to invite you to join the programme!**
